Since over 30 years we do all the best to support our client's in their business

We are practitioners who know power of gastronomy. Your challenges are our challenges, too, so we offer solutions to help you achieve your goal - with us, you'll get the satisfaction and take pride in your work.

Together with restaurant owners, distributors and our partners, we are changing the catering market. In times of uncertainty, we believe that this is a job for **strong, dynamic and proven players.**

Polish manufacturing

Modern Factory of Catering in Radom

We are a family business. We have been sharing our knowledge and experience for **two generations**. This is also how we approach business - as partners, based on mutual **trust and support.** Working with us, you can count on facing together: the daily and long-term challenges of the catering business: through kitchen equipment, selection of furniture or accessories, to professional service at every stage of the purchase.

Satisfaction with well-prepared dishes and, as a result, the **satisfaction of our clients** is our greatest motivation. After all, as a leader, we feel responsible not only for our customers, but also for the entire catering industry, setting trends and new directions of development.

We are the Central European market leader and the largest HoReCa company in the local market. You can count on us.

In 2008, we launched a factory of catering equipment and accessories in Radom, and we are successively developing our offer. Production is carried out in a modern machinery park, which gives us great opportunities for rapid implementation and precise individualization of orders.

We manufacture stainless steel furniture, dishwashers, heating lines, serving lines and small setting equipment. We also manufacture plastic accessories (such as dishwasher baskets and catering boards).

Pro-ecological technologies

In 2018, we launched the industry's most modern Logistics Center, where distribution to domestic and foreign customers is organized using the latest processes and technologies.

• Capacity of almost 20 000 pallets
• Same-day handling time
• More than 7500 products in stock
• 10 ramps

By fulfilling your order, we **care** about you and the environment. We have almost completely **reduced the use of plastics** in packaging, introduced **environmentally friendly solutions** in the production of stainless steel furniture, and are gradually extending this process to other manufactured equipment.

We support our clients at every stage of the investment

GREDIL
ECO line furniture

A professional kitchen means professional equipment, including stainless steel furniture. In addition to the safety aspects, ease of use in daily work or corrosion resistance are extremely important. The GREDIL ECO product line meets all these expectations.

AISI 201 — **Ease of use** and assembly made of AISI 201 stainless steel

Corrosion resistance suitable for use in the catering industry

**Eco friendly**, no platics in packaging
Food safety certificate to work safety

Production in Europe guarantees fast and flexible delivery
